<about-me>

- <p> I used to work as a lawyer for 4 years. That gave me characteristics such as hyper-responsible and hard-working. </p>
- <p> However, throughout my life I have always been interested in programming, developing small projects. </p>
- <p> Now I'm full-motivated, interested in learning web and mobile application development technologies (both front-end and back-end). </p>
- <p> I spend all my free time to improve my development skills and learn new technologies, honestly:) </p>
- <p> My main goal is to get my first experience on a real project. </p>
